- **Summary:** Dashboard application for web surfing with news, weather and games
- **Role:** Designed a game from scratch, while also performed as team mentor with bug fixing and maintaining proper GitHub use and deployment.
- **Tools:** HTML, CSS, JavaScript, jQuery, Bootstrap

## Experience

**Entrepreneur**

**2008-2020**

**Wildcat Pizza**

**Durham, NH**

Collaborated between cross-functional teams to ensure efficient operation. Cultivated a positive workplace culture due to superior employee management, and team roadmap design. Maintained high community status through diligence and customer outreach.

**Master Carpenter**

**1998-2008**

**MGCC**

**Salem, MA**

Was able to maintain industry standard through constant restructuring of workflow to provide maximum efficiency. Provided clear concise communication to customers and coworkers regardless of knowledge background they possessed. Demonstrated excellence amongst my peers for following time constraints and safety guidelines.

## **Education**

**Certificate, Full Stack Web Development** – University of New Hampshire

**Durham, NH**
